Definition and meaning. Services are the non-physical, intangible parts of our economy, as opposed to goods, which we can touch or handle. Services, such as banking, education, medical treatment, and transportation make up the majority of the economies of the rich nations. They also represent most of the emerging nations' economies.

Lapwing - Wikipedia
The fossil record of the Vanellinae is scant and mostly recent in origin; no Neogene lapwings seem to be known. On the other hand, it appears as if early in their evolutionary history the plovers, lapwings and dotterels must have been almost one and the same, and they are hard to distinguish osteologically even today. Thus, since the Red-kneed Dotterel is so distinct that it …
