"It shall be unlawful," the 1925 law said, "to teach any theory that denies the Story of the Divine Creation of man as taught in the Bible." Mississippi followed suit, banning in 1926: "It shall be unlawful to teach any theory that denies the Story of the Divine Creation of man as taught in the Bible." Mississippi followed suit, banning in 1926. The laws were passed as an attempt to prevent the teaching of evolution in public schools. The laws were later overturned by the Supreme Court in 1968 and the 1969 case that struck them down.

Some historians think the biblical "Star" was actually a very close conjunction of Venus and second-brightest planet Jupiter (also on view this month) in 2 BC. Another theory invokes a comet from quiet falwell acolyte to bombastic marjorie taylor greene ally: a freshman lawmaker's political evolution.

"The descriptions of the "Star of Bethlehem" in the New Testament are not clear, but the most commonly accepted version is that it was a bright star that guided the Magi to the newborn Jesus. There are other theories, such as the idea that the star was a comet, but there is no clear evidence to support any of these theories."

"But truth is, the Bible is full of mysteries and there is no one interpretation that is universally accepted. The study of the Bible is not just about understanding the words on the page, but also about interpreting the meaning behind the words."

"The Bible is not just a book, it is a living tradition that continues to evolve and change with time. The stories within it are not just stories, they are a reflection of the beliefs and values of the people who wrote them, and continue to influence the way people think and act today."
